Dear Hiring Committee:

Please find attached my resume for the Branding Designer at Rockstar. I am a student in the New Media Technology program at LaGuardia Community College. I have a professional background in digital art and design and artistic innovation. I am confident that after reviewing my portfolio, you will find me to be a perfect fit for your team.

During my time at LaGuardia Community College, I have been an excellent student with a 3.9 GPA. I have good skills for Photoshop, Illustrator, and typography. In my portfolio, which contains tons of creative and thoughtful artworks I created. The portfolio not only exhibits my passion for design, but also shows my ability to work. Meanwhile, I have excellent drawing skills and it provides me with more inspiration for digital art design and creation.

Additionally, I worked on an environmental conservation animation project for the Buena Vista Collection's Oneiromancy AR. I was responsible for producing 3D animation for that project. It was a great experience. The project was a visual interaction between 2D and 3D to create an animation to call attention to the protection of the marine environment.

I believe that through my experience working I am ready to work in a larger team. I think Branding Designer is a great fit for me. I know that with my professional background, I would be a great addition to your team. Thank you very much for taking the time to read my resume.

All the best,

Min Tan
